45. Procurement Related Complaints and Administrative Review

45.1 The procedures for making a Procurement-related Complaint are as **specified in the PDS**.

46. Abnormal Low and Abnormally High Prices

46.1 Abnormally Low Prices

46.1.1 An Abnormally Low Price is one where the financial price, in combination with other constituent elements of the proposal, appears unreasonably low to the extent that the price raises material concerns with ENPF as to the capability of the Non-Consultancy Services to perform the Contract for the offered price.

46.1.2 In the event of identification of a potentially Abnormally Low Price by the evaluation committee, ENPF shall seek written clarification from the firm, including a detailed price analyses of its price in relation to the subject matter of the contract, scope, delivery schedule, allocation of risks and responsibilities and any other requirements of the RFP document.

46.1.2 After evaluation of the price analyses, if ENPF determines that the firm has failed to demonstrate its capability to perform the contract for the offered price, ENPF shall reject the firm's proposal.

46.2 Abnormally High Prices

46.2.1 An abnormally high price is one where the proposal price, in combination with other constituent elements of the proposal, appears unreasonably too high to the extent that ENPF is concerned that it (ENPF) may not be getting value for money or it may be paying too high a price for the contract compared with market prices or that genuine competition between Companies is compromised.

46.2.2 In case of an abnormally high tender price, ENPF shall make a survey of the market prices, check if the estimated cost of the contract is correct, and review the RFP to check if the Terms of Reference, scope of work and conditions of contract are contributory to the abnormally high proposals. ENPF may also seek written clarification from the Companies on the reason or the high proposal price. ENPF shall proceed as follows:

- i) If the proposal price is abnormally high based on wrong estimated cost of the contract, ENPF may accept or not accept the proposal depending on ENPF's budget considerations.
- ii) If Terms of Reference, scope of work and/or conditions of contract are contributory to the abnormally high proposal prices, ENPF shall reject all proposals and may re-invite for proposals for the contract based on revised estimates, Terms of Reference, scope of work and conditions of contract.

46.2.3 If ENPF determines that the Proposal Price is abnormally too high because genuine competition between Companies is compromised (often due to collusion, corruption or other manipulations), ENPF shall reject all Proposals and shall institute or cause competent Government Agencies to institute an investigation on the cause of the compromise and inform the Agency, before re-

$Sf = 100 \times Fm / F$, in which “Sf” is the financial score, “Fm” is the lowest price, and “F” the price of the proposal under consideration.

The weights given to the Technical (T) and Financial (P) Proposals are:

T = 80, and

P = 20

Proposals are ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) as following:

$S = St \times T\% + Sf \times P\%$.
